REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a VoIP network having a virtual circuit carrying VoIP calls that is coupled to a router and supported by a DSLAM. The DSLAM is coupled between the access router and a broadband remote access server/node. Neither does the prior art teach a virtual circuit carrying VoIP calls via a 1st Point to Point Over Ethernet (PPPoE) session and also carrying other data traffic via a 2nd PPPoE session, with both sessions supported by a DSLAM. The prior art also fails to teach a VoIP phone having PPPoE function key. The prior art also fails to teach a VoIP call that retrieves PPPoE login information. No obvious combination of references found would have taught one of ordinary skill in the art to make and use applicant's method as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Creighton H. Smith whose telephone number is 571/272-7546. The examiner can normally be reached on M-F, alternate Fridays off.
